Childrens Emotional Wellbeing Practitioner

Description

| Job Purpose/Summary:

To provide 1-2-1 and group interventions for children who require extra support with: Understanding and managing strong emotions, processing traumatic events, attachment difficulties, anxiety, self-esteem, family relationships, to name just a few. Our approach is trauma informed and works with the understanding that behaviours and emotions, especially difficult ones, are often an understandable response to a challenging situation. We focus on the strengths of young people and the small things we can do every day to support our wellbeing. The project supports children and young people to not only understand their emotions but to regulate them. Through support, children can communicate their emotional needs as well as use various proven emotional regulation tools to soothe themselves in times of distress. Children then feel more confident once support has ended to take on any tough life experiences without the help of services.

| To provide a high-quality service for children and their families in the communities we serve. To this end provide: Positive connections, proven intervention, in a warm safe environment that will enhance the physical, emotional, and educational development.

Fixed term – until 31st March 2027 and subject to future funding.

Please supply a CV and covering letter detailing your suitability for the role based on the role description
